

## Engaging Teens Through Your Library Module 2: Your First Job Reflections

After you watch the **What's the Impact** video and review the materials for this module, take a few minutes to think about the very first job you had. After you record your answers consider how that experience had an impact on your teen years and your adult work life and personal life.

---

What was the first job you ever had?

How old were you?

What did you do in the job?

What did you like least about the job

What did you like the most about the job?

What adults do you remember from that job? What do you remember about them?

What did you learn on that job?

What did you take from that job into later life?/What impact did that job and the people you encountered there have on your later life?
